

Readings L7-12 Romney et al

In our readings of Revel Romney et al. "Accounting Information Systems" (see Studium – "How to buy it"), we mainly follow the digital version. The digital version has many pedagogical "tools". There are three in every chapter: "Reading", "Quiz", and "Test". When I refer to a chapter, it is the "Reading" (excl. "Reading Appendix"). Quiz and Tests are helpful pedagogical tools – but not mandatory in our course. Please note: In our "Dugga", we test concepts from Romney! Therefore, continuously testing yourself with a "Quiz" and "Test" can be a good idea.

30/1 L7, B153 14.15-16: IT Governance and IT-strategy

Close reading:

- Romney Chapter 10 & 18

Overview reading:

- Burton et al, 2018 A systematic review of algorithm aversion in augmented decision making
