

## Home exam The Role and Technique CF=/Controller. Spring 2023

Jan Lindvall 230307

1. From – with the support of Beckwith's "10 Vital Roles for CFOs" – discuss identified "traditional problems" and "possible future" solutions for the CFO- role. (max two pages).
2. Explain to a friend what "Data Architecture" is and why (and how) it is important. (one page).
3. Why is *data quality* so essential, and what can we/ do we need to do to improve it? (one page).
4. From your perspective – what is the most important you have learnt from our course literature? Which literature – what have you learned? (one page)

Use Times New Roman, 12 ppt, 1.5 space. Uploaded in a separate folder in Studium no later than April 3, 2023. Possible grades: U (F), G (Passed).

If you, instead of this home exam, want to have a traditional "Dugga", as last time, tell me, and I will arrange for that.

Regards

Jan
