

DUGGA" (A small written exam focused on important concepts).

February 16, 2023.

Jan Lindvall

Each question can give you 10 p. The maximum length of your answer is **one page**, handwritten text, for each question. If possible, try to give your answer in a sequence, like **"what"** (a definition concept/question), **"how"** (its logic, how it works, its functionality) and **"so what"** (its consequences). No supporting materials are allowed.

1. What is - "An ERP System"? Discuss - shortly - two crucial aspects of this system!
2. What is a Data Warehouse? Compared with an "Operational database", what is the crucial difference?
3. Discuss the concepts "Transaction work" and "Analytical work" related to a CFO department and the "digital tools" they use/can use related to this type of work.
4. A central concept in our course is "Corporate Governance". Define the concept and explain some "specifics" in the "Swedish Corporate Governance System" compared with the US system.
